FISCAL NOTE ANALYSIS

STATE OF ALASKA
2018 LEGISLATIVE SESSION

Analysis

SB169 amends AS 47.07.030 *Medical services to be provided* and eliminates the current requirement that mental health physician clinics must be operated by a psychiatrist who must be physically present within the clinic at least 30% of the clinic's operating hours.

This bill would allow psychiatrists to provide supervision either in person or by a communication device. Adding supervision by a communication device provides viable alternatives to on-site supervision.

Mental health physician clinic services are rendered by licensed mental health professionals whose conduct is governed by statute and professional ethics standards.

There are no costs associated with this bill for the Division of Behavioral Health.
